

Make an Autumn Animal Poster!

We've got a fun idea for you this month! Let's celebrate Autumn and the animals all around us - we're going to make an Autumn Animal Poster!

Now this isn't going to be any ordinary poster... we're going to make it using some beautiful autumn leaves - and anything else you find in your garden or on your walks that you think would be really awesome to add. We're going to use the treasures we find to create some animals.

You will need:

- A piece of paper - any size you want, but we're using A3 so it's nice and big!
- PVA glue
- Some coloured pencils or pens
- Scissors (be careful!)
- A collection of autumn leaves, twigs, and anything else you find that you want to add to your poster
- Your imagination!

What to do:

1. Think of the animal you're going to create! Is it a hedgehog? An owl? Maybe a cat or a dog playing in the garden?
2. Draw an outline of the animal you want to make with some coloured pencils or pens. You may need to draw the face of your animal and then build up the body with the leaves.
3. Start to stick your leaves onto the paper to fill in your animal outline. Keep going until it's complete!
4. Use the twigs, berries or anything else you found to give your animal somewhere to live. If you've made an owl, maybe you can use the twigs to build a tree for it to perch on?
5. When you've finished, show everyone your amazing artwork!
