

Make a wildflower seed bomb!

You will need:

A mixing bowl
Flour
Soil from the garden!
Water
Wildflower seeds

How to make your wildflower seed bombs

1. Start by mixing the soil & flour together - mix 10 parts soil to 1 part flour (for example, 10 spoons of soil + 1 spoon of flour!)
2. Add in water slowly until the mixture becomes sticky.
3. Now for the (fun!) messy bit! Start to roll the mixture into balls (about the size of a golf ball is perfect!)
4. Tip your seeds into a tray and roll the mud balls around in them so that each ball is well covered in seeds.
5. Leave them to dry for a day or two.
6. Time for 'planting'! Throw your seed bombs into areas of the garden where you want your wildflowers to grow!

We can't wait to see your wildflower gardens, and the wildlife will LOVE you for planting one!
