

Make a Pine Cone Animal!

We've got a fun idea for you this month! Let's celebrate Autumn and the animals all around us - we're going to make a Pine Cone Animal!

Just remember - keep these cool creations away from your pets - especially if you're using things like acorns to create your animals.

Let's get creative!

You will need:

- Pine cones
- Other bits & pieces from nature - try leaves, twigs (they make great legs!) & anything else you fancy
- Googly eyes, pipe cleaners
- Felt - a great selection of colours is perfect for this project
- Craft glue
- Scissors
- Your imagination!

What to do:

1. Think of the animal you're going to create! Maybe a hedgehog or an owl? Or a dog, cat or squirrel!
2. Glue the googly eyes to your pine cone - if you want them to be colourful, stick them to some cool felt first!
3. Does your animal have wings? If so, you can use nature's creations and pick some fallen colourful leaves to create your wings. Or, you can cut out some groovy wings from your felt. Stick them on!
4. How about some legs? Try twigs, pipe cleaners, or more felt! Which will you choose?
5. Give your animal a name, and try creating a new friend! Happy crafting!
