Make an egg carton penguin

You will need:

- Egg carton
- Paint (black and white)
- Paintbrushes
- Glue
- Googly eyes
- Orange felt

How to make your egg carton penguin

1. Take your egg carton and pull apart all of the individual egg cups.
2. Paint the egg cups black. Let them dry! Once they're dry, paint a nice white belly on one side.
3. Take your orange felt - this will make your penguin's feet and beak! With the help of an adult, cut a heart shape for the feet, and a triangle for the beak.
4. Glue the feet and beak onto your egg cup!
5. Finally, add your googly eyes, and watch your penguin come to life!
6. Why not make some more, so your penguin has some family and friends!
