Have a Pawsome Christmas

Ho ho ho! Christmas is coming - twinkly lights, sparkly tinsel, and maybe even a visit from Santa Paws! But did you know that Christmas can be a little bit tricky for our furry, feathery, and scaly friends? Don't worry - with some easy tips and fun ideas, you can make sure your pet has the best Christmas ever!

Watch the tinsel

Tinsel looks shiny and fun, but it's not for chewing! Cats and dogs might think it's a toy, but it can make their tummies poorly. Keep it high up where they can't reach.

Chocolate is for humans only

Even though it smells yummy, chocolate can make pets very sick. So if you get a big box of choccies, keep them out of paws' reach — and don't share, no matter how cute those eyes look!

Christmas tree adventures

Pets love exploring trees — but make sure your tree is steady so it doesn't topple over! And if you have a curious kitten or pup, keep glass baubles up high and use plastic ones near the bottom.

Party time calm

If you're having friends or family round, your pet might like a quiet spot to rest. Make a cosy corner with their bed and favourite toy so they can relax if things get too noisy.

Wrapping paper fun

Pets love rustly paper! But remember — take off any ribbons or tape before they play, so they don't accidentally swallow something they shouldn't. Paper can be played with, but not eaten, too!

Did you know?

Dogs can smell **ten thousand** times better than we can - they can sniff out the turkey before it's even cooked!

Fun Fact!

Cats sleep for up to **16 hours** a day - that's a lot of Christmas naps!
